

Center for Family Guidance, PC is seeking an Adult and or Child and Adolescence Psychiatrist to work within the South Jersey Health Systems Behavioral Health Division.

Inpatient Unit

This full time position will allow the psychiatrist to become a member and lead psychiatrist of the multi-disciplinary treatment team. Primary duties will consist of a full range of psychiatric services to assigned patients. Services provided include direct care of patients in the clinical setting including: assessment, screening, diagnosis, and treatment of patients and determining the degree of disabilities in patients. Psychiatrist will prescribe medication to patients as deemed necessary and will conduct medication management. Additionally, the physician will provide clinical leadership for a treatment team of experienced nurses, clinicians and social workers. Treatment will include initial admissions evaluations, daily follow up care and discharge planning. The ability and willingness to work with System Care and other providers is an important component of the position. The ideal candidate will be board certified in adult psychiatry and or child psychiatry with a New Jersey Medical License, DEA and CDS.

Center for Family Guidance, PC offers excellent compensation packages that include competitive salaries, and an array of benefits including health insurance, retirement, paid time off, CMEs to name a few.

Center for Family Guidance, PC is a well-established and innovative provider of mental health services in New Jersey and surrounding states. Center for Family Guidance, PC is also part of the CFG Network of health and mental health services. This network means growth opportunities for our associates as well as continued financial stability.
